LOGISTICS & SUPPLY CHAIN MANAGEMENT

The course focusses on the process of integration and maintenance of goods in an organisation, along with its coordination and management of supply chains. Supply chain management has a big potential in India and abroad. A career in supply chain provides travel opportunities with better remuneration. The career fields in logistics management are business sustainability and green operations, general management, operations management, project management and small business management/entrepreneurship.

Mode of training: Offline with internship training (150 hrs)
Certificate provided: National Skill Development Corporation (NSDC)

HYBRID AIRPORT INDUCTION PROGRAM: SHAPING THE FUTURE OF AVIATION TRAINING

The Hybrid Airport Induction Program is specifically designed to mould ground-crew professionals for India, the world's third-largest aviation market. This comprehensive course provides exposure and hands-on experience in airline and ground handling operations, preparing learners for the industry 4.0 concept. The training includes virtual reality and simulation-based learning, alongside multimedia courses for basic airport induction. A highlight of the program is the Airportverse, a 3.5 million sqft virtual airport built on an Augmented Reality/Virtual Reality platform, enabling learners to access their future workstations. The course covers complete airline flight operations and ground handling operations. Learners can make mistakes and perfect their job roles before joining the industry. It covers three job roles namely Airline Customer Service Executive, Ramp Executive and Cabin Crew.

Mode of training: Hybrid mode or Phygital (Physical and Digital)- 300 hrs

Certificate provided: Aerospace and Aviation Sector Skill Council (AASSC), India's premier Aviation skilling body under Government of India.
